

WORKING TOGETHER TO REDUCE INEQUALITY IN CANCER

ASK ABOUT OUR STUDY

We're looking for people with rare and understudied cancers

**Cholangiocarcinoma
(Bile Duct Cancer)**

**Colorectal Cancer
in Black Americans
Under Age 50**

**Multiple Myeloma
in Black Americans**

The Washington University Participant Engagement and Cancer Genome Sequencing Center study uses a many-layered approach - including genetic testing - to fill important gaps in what we know about these cancers.
